EXPERIENCE

Freelance Web Developer

February 2026 – Present

- Designed and developed responsive websites, landing pages, and complete information and management systems for various clients and projects
- Built frontend interfaces and administrative pages based on client requirements and usability needs

Intern Developer & UI/UX Designer, Vintazk Outsourcing

February 2026 – May 2026

- Assisted in the development of a Flutter-based Point of Sale (POS) system with AI-powered predictive features and designed responsive and user-friendly mobile interfaces while collaborating with the development team
- Worked with Flutter, Supabase, and SQLite to support both online and offline system functionality

PROJECTS

INVENTA – AI-Powered POS & Inventory System

Intern Developer | Vintazk Outsourcing / Nexzys Intelligence

- Developed an AI-powered Point-of-Sale and Inventory Management System for coffee shops and food businesses in the Philippines
- Implemented Smart POS with real-time stock awareness and offline-first cloud synchronization
- Built AI-driven features including sales forecasting, demand risk analysis, and stock expiry warnings
- Tech Stack: Flutter, Supabase, SQLite

Crimson Map – AR Campus Navigation System

Lead Developer | Western Mindanao State University

- Developed an Augmented Reality (AR)-based campus navigation system for WMSU
- Implemented indoor and outdoor route navigation using Mapbox and A* pathfinding algorithm
- Tech Stack: Unity, AR Foundation, Firebase, and C#

Al-Furqan Islamic Institute Academic Management System

Front-End Developer | Software Engineering Project

- Assisted in implementing enrollment, academic, and administrative modules
- Developed responsive frontend interfaces for an academic management system for a Madrasa institution
- Designed clean UI components for improved usability and user experience
- Tech Stack: Vanilla Web Development, Java, and VPS deployment

PyQuest – Gamified Educational Blog Platform

Solo Developer & Designer

- Built an interactive retro-style blog documenting an educational tour of IT students from WMSU CCS
- Developed a gamified pixel-art inspired UI using React.js
- Focused on creative storytelling through web design and interactive user experience
- Tech Stack: Next.js

ORGANIZATIONS & LEADERSHIP

College Student Council – CCS (CSC-CCS), WMSU

Western Mindanao State University – College of Computing Studies

- Assistant Head – Logistics Department
- Officer-in-Charge (OIC) Councilor

Philippine Society of Information Technology Students (PSITS)

Western Mindanao State University

1st & 2nd Year Representative

EDUCATION

Bachelor of Science in Information Technology

August 2022 – June 2026

Western Mindanao State University

- Cum Laude | GWA: 1.40014
- On the Job Training (OJT) Outstanding Performer

CERTIFICATIONS & ELIGIBILITY

Civil Service Eligibility

Honor Graduate Eligibility (HGE) – Civil Service Commission (Philippines)

Claude 101 – Anthropic Academy

Credential: <https://verify.skilljar.com/c/ufyyfk9o89cm>

AI Fluency – Anthropic Academy

Credential: <https://verify.skilljar.com/c/pv3uwwb5j85i>
